

**COMPLYING WITH THE LIFE INSURANCE
MODEL ILLUSTRATION REGULATION**

Date: May 1, 2008

This document provides information about the NAIC Model Illustration Regulation and how it will affect agents selling Symetra Life's individual life products. Following are pertinent facts that you need to know when selling life products to your customers.

- **Life insurance companies must identify the products to be sold with an illustration.**

The regulation requires that we designate the products we will be selling with a sales illustration. Symetra Life has designated the following individual life products to be issued with a basic illustration:

UNIVERSAL LIFE

Accelerated UL
Target Excellence UL

When selling any of these products a basic illustration prepared and delivered in accordance with the model regulation is required. The remaining Symetra Life products are identified as being marketed without an illustration; any use of an illustration prior to the first policy anniversary is prohibited.

- **Method used to allocate expenses must be disclosed.**

The regulation provides three approved methods to allocate expenses. They are:

- (1) Fully allocated expenses;
- (2) Marginal expenses; and
- (3) A generally recognized expense table based on fully allocated expenses which is approved by the National Association of Insurance Commissioners.

Symetra Life has chosen method (3), the generally recognized expense table.

- **Illustrations must conform to a prescribed format and they must be explained clearly and accurately to customers.**

The illustration format designed by Symetra Life complies with the illustration regulation. Other illustration formats should not be used. When using an illustration in the sale of a life insurance policy, an insurer or its producers or other authorized representative shall not:

- (1) Represent the policy as anything other than a life insurance policy;
- (2) Use or describe non-guaranteed elements in a manner that is misleading or has the capacity or tendency to mislead;
- (3) State or imply that the payment or amount of non-guaranteed elements is guaranteed;
- (4) Use an illustration that does not comply with the requirements of this regulation;
- (5) Use an illustration that at any policy duration depicts policy performance more favorable to the policy owner than that produced by the illustrated scale of the insurer whose policy is being illustrated;
- (6) Provide an applicant with an incomplete illustration;
- (7) Represent in any way that premium payments will not be required for each year of the policy in order to maintain the illustrated death benefits, unless that is the fact;

(8) Use the term “vanish” or “vanishing premium” or a similar term that implies the policy becomes paid up, to describe a plan for using non-guaranteed elements to pay a portion of future premiums.”¹

- **Interest rates being illustrated must not exceed the current rate being offered.**

In addition to the above, the interest rate used to illustrate the non-guaranteed values for universal life policies **MAY NOT EXCEED** the current rate being offered for each of Symetra Life’s products. Current rates may be found on: <http://www.symetra.com/financial/media/WCIL68.pdf>.

- **Agent and applicant must sign the illustration or the form that no illustration was provided.**

If an illustration is used in the sale of a life insurance policy and the policy is applied for as it was illustrated, a signed copy of the illustration shall be submitted to Symetra Life along with the application. If the policy is issued other than applied for, Symetra Life will provide two copies of a revised illustration at the time a policy is mailed. The illustration will be marked “revised illustration.” The applicant and agent will need to sign both copies of the revised illustration. One copy is to be retained by the applicant and the other is to be returned to Symetra Life.

If no illustration is used in the sale of the policy or if the policy is applied for other than as illustrated, the agent and applicant shall sign the *Illustration of Life Insurance Certification* form acknowledging that no illustration was provided. This form will be submitted to Symetra Life along with the application. If the policy is issued, two copies of a basic illustration conforming to the policy will be sent with the policy. They will need to be signed no later than the date the policy is delivered. One copy is to be retained by applicant and the other is to be returned to us.

In addition there may be circumstances where an agent will use a computer screen to display an illustration but does not provide a printed illustration to the applicant. In that case the *Illustration of Life Insurance Certification* form will need to be signed by both the agent and applicant and forwarded along with the application to Symetra Life. Again, two copies of a basic illustration conforming to the policy will be sent with the policy and will need to be signed no later than the date the policy is delivered. One copy of to be retained by the applicant and the other is to be returned to us.

- **Supplemental Illustrations must be accompanied with or preceded by a basic illustration; and, the interest rate must not exceed the current rate being offered.**

The regulation also discusses supplemental illustration and what must be done when using them. Supplemental illustrations must be accompanied with or preceded by a basic illustration that complies with the regulation. The non-guaranteed elements in supplemental illustrations can not be more favorable than what was provided in the basic illustration. Supplemental illustrations must also contain the statement that non-guaranteed elements are not guaranteed, which is the same requirement for the basic illustration. Lastly, the contract premium or premium outlay in the supplemental illustrations must be equal to the contract premium or premium outlay shown in the basic illustration.

¹ NAIC – Life Insurance Illustrations Model Regulation – January 1996

ILLUSTRATION OF LIFE INSURANCE CERTIFICATION (Check One)

- As the agent, I certify that either no illustration of life insurance was used during the sales process, or that the illustration used did not conform to the policy as applied for.

As the applicant, I acknowledge that either no illustration of life insurance has been provided to me, or that the illustration used did not conform to the policy as applied for. I further acknowledge and understand that a printed illustration conforming to the issued policy will be provided no later than the date the policy is delivered.

- As the agent, I certify that I displayed a computer screen illustration of life insurance that complies with state requirements and for which no printed copy was furnished to the applicant. The screen illustration was based on the following information.

Name of Primary Insured	
Birth Date or Issue Age	
Initial Face Amount	
Gender (check one)	<input type="checkbox"/> Male <input type="checkbox"/> Female
Rate Class (check one)	<input type="checkbox"/> Nonsmoker <input type="checkbox"/> Smoker <input type="checkbox"/> Preferred Nonsmoker <input type="checkbox"/> Preferred Smoker <input type="checkbox"/> Standard Nonsmoker <input type="checkbox"/> Standard Smoker
Product (check one)	Symetra: <div style="display: flex; justify-content: space-between;"> <div style="width: 45%;"> <p style="text-align: center;"><u>Universal Life</u></p> <input type="checkbox"/> Accelerated UL (AUL) <input type="checkbox"/> Target Excellence UL </div> <div style="width: 45%;"> <p style="text-align: center;"><u>Term Insurance</u></p> <input type="checkbox"/> Symetra-ART </div> </div>
Interest Rate (UL products)	

As the applicant, I acknowledge that I viewed a computer screen illustration of life insurance and that no printed copy of it was provided to me. I understand that a printed illustration conforming to the issued policy will be provided to me no later than the date the policy is delivered.

MINNESOTA ILLUSTRATION REGULATION

61A.70 APPLICABILITY AND SCOPE.

Sections [61A.70](#) to [61A.745](#) apply to all group and individual life insurance policies and certificates except:

- (1) variable life insurance;
- (2) individual and group annuity contracts;
- (3) credit life insurance; or
- (4) life insurance policies with no illustrated death benefits on any individual exceeding \$10,000.

History: 2007 c 104 s 6

61A.705 DEFINITIONS.

For the purposes of sections [61A.70](#) to [61A.745](#):

- (a) "Actuarial Standards Board" means the board established by the American Academy of Actuaries to develop and promulgate standards of actuarial practice.
- (b) "Contract premium" means the gross premium that is required to be paid under a fixed premium policy, including the premium for a rider for which benefits are shown in the illustration.
- (c) "Currently payable scale" means a scale of nonguaranteed elements in effect for a policy form as of the preparation date of the illustration or declared to become effective within the next 95 days.
- (d) "Disciplined current scale" means a scale of nonguaranteed elements constituting a limit on illustrations currently being illustrated by an insurer that is reasonably based on actual recent historical experience, as certified annually by an illustration actuary designated by the insurer. Further guidance in determining the disciplined current scale as contained in standards established by the Actuarial Standards Board may be relied upon if the standards:
 - (1) are consistent with all provisions of sections [61A.70](#) to [61A.745](#);
 - (2) limit a disciplined current scale to reflect only actions that have already been taken or events that have already occurred;
 - (3) do not permit a disciplined current scale to include any projected trends of improvements in experience or any assumed improvements in experience beyond the illustration date; and
 - (4) do not permit assumed expenses to be less than minimum assumed expenses.
- (e) "Generic name" means a short title descriptive of the policy being illustrated such as "whole life," "term life," or "flexible premium adjustable life."
- (f) "Guaranteed elements" and "nonguaranteed elements" are defined as follows:
 - (1) "guaranteed elements" means the premiums, benefits, values, credits, or charges under a policy of life insurance that are guaranteed and determined at issue; and
 - (2) "nonguaranteed elements" means the premiums, benefits, values, credits, or charges under a policy of life insurance that are not guaranteed or not determined at issue.
- (g) "Illustrated scale" means a scale of nonguaranteed elements currently being illustrated that is not more favorable to the policy owner than the lesser of:
 - (1) the disciplined current scale; or
 - (2) the currently payable scale.
- (h) "Illustration" means a presentation or depiction that includes nonguaranteed elements of a policy of life insurance over a period of years and that is one of the three types defined

in clauses (1) to (3):

(1) "basic illustration" means a ledger or proposal used in the sale of a life insurance policy that shows both guaranteed and nonguaranteed elements;

(2) "supplemental illustration" means an illustration furnished in addition to a basic illustration that meets the applicable requirements of sections [61A.70](#) to [61A.745](#), and that may be presented in a format differing from the basic illustration, but may only depict a scale of nonguaranteed elements that is permitted in a basic illustration; and

(3) "in-force illustration" means an illustration furnished at any time after the policy that it depicts has been in force for one year or more.

(i) "Illustration actuary" means an actuary meeting the requirements of section [61A.74](#) who certifies to illustrations based on the standard of practice adopted by the Actuarial Standards Board.

(j) "Lapse-supported illustration" means an illustration of a policy form failing the test of self-supporting as defined in sections [61A.70](#) to [61A.745](#), under a modified persistency rate assumption using persistency rates underlying the disciplined current scale for the first five years and 100 percent policy persistency thereafter.

(k)(1) "Minimum assumed expenses" means the minimum expenses that may be used in the calculation of the disciplined current scale for a policy form. The insurer may choose to designate each year the method of determining assumed expenses for all policy forms from the following:

(i) fully allocated expenses;

(ii) marginal expenses; and

(iii) a generally recognized expense table based on fully allocated expenses representing a significant portion of insurance companies and approved by the National Association of Insurance Commissioners or by the commissioner.

(2) Marginal expenses may be used only if greater than a generally recognized expense table. If no generally recognized expense table is approved, fully allocated expenses must be used.

(l) "Nonterm group life" means a group policy or individual policies of life insurance issued to members of an employer group or other permitted group where:

(1) every plan of coverage was selected by the employer or other group representative;

(2) some portion of the premium is paid by the group or through payroll deduction; and

(3) group underwriting or simplified underwriting is used.

(m) "Policy owner" means the owner named in the policy or the certificate holder in the case of a group policy.

(n) "Premium outlay" means the amount of premium assumed to be paid by the policy owner or other premium payer out-of-pocket.

(o) "Self-supporting illustration" means an illustration of a policy form for which it can be demonstrated that, when using experience assumptions underlying the disciplined current scale, for all illustrated points in time on or after the 15th policy anniversary or the 20th policy anniversary for second-or-later-to-die policies (or upon policy expiration if sooner), the accumulated value of all policy cash flows equals or exceeds the total policy owner value available. For this purpose, policy owner value will include cash surrender values and any other illustrated benefit amounts available at the policy owner's election.

History: 2007 c 104 s 7

61A.71 POLICIES TO BE ILLUSTRATED.

(a) Each insurer marketing policies to which sections [61A.70](#) to [61A.745](#) are applicable shall notify the commissioner whether a policy form is to be marketed with or without an illustration. For all policy forms being actively marketed on January 1, 2008, the insurer shall identify in writing those forms and whether or not an illustration will be used with them. For policy forms filed after January 1, 2008, the identification must be made at the time of filing. Any previous identification may be changed by notice to the commissioner.

(b) If the insurer identifies a policy form as one to be marketed without an illustration, any use of an illustration for any policy using that form prior to the first policy anniversary is prohibited.

(c) If a policy form is identified by the insurer as one to be marketed with an illustration, a basic illustration prepared and delivered in accordance with sections [61A.70](#) to [61A.745](#) is required, except that a basic illustration need not be provided to individual members of a group or to individuals insured under multiple lives coverage issued to a single applicant unless the coverage is marketed to these individuals. The illustration furnished an applicant for a group life insurance policy or policies issued to a single applicant on multiple lives may be either an individual or composite illustration representative of the coverage on the lives of members of the group or the multiple lives covered.

(d) Potential enrollees of nonterm group life subject to sections [61A.70](#) to [61A.745](#) shall be furnished a quotation with the enrollment materials. The quotation must show potential policy values for sample ages and policy years on a guaranteed and nonguaranteed basis appropriate to the group and the coverage. This quotation must not be considered an illustration for purposes of sections [61A.70](#) to [61A.745](#), but all information provided shall be consistent with the illustrated scale. A basic illustration must be provided at delivery of the certificate to enrollees for nonterm group life who enroll for more than the minimum premium necessary to provide pure death benefit protection. In addition, the insurer shall make a basic illustration available to any nonterm group life enrollee who requests it.

History: 2007 c 104 s 8

61A.715 GENERAL RULES AND PROHIBITIONS.

(a) An illustration used in the sale of a life insurance policy must satisfy the applicable requirements of sections [61A.70](#) to [61A.745](#), be clearly labeled "life insurance illustration," and contain the following basic information:

- (1) name of insurer;
- (2) name and business address of producer or insurer's authorized representative, if any;
- (3) name, age, and sex of proposed insured, except where a composite illustration is permitted under sections [61A.70](#) to [61A.745](#);
- (4) underwriting or rating classification upon which the illustration is based;
- (5) generic name of policy, the company product name, if different, and form number;
- (6) initial death benefit; and
- (7) dividend option election or application of nonguaranteed elements, if applicable.

(b) When using an illustration in the sale of a life insurance policy, an insurer or its producers or other authorized representatives shall not:

- (1) represent the policy as anything other than a life insurance policy;
- (2) use or describe nonguaranteed elements in a manner that is misleading or has the capacity

or tendency to mislead;

(3) state or imply that the payment or amount of nonguaranteed elements is guaranteed;

(4) use an illustration that does not comply with the requirements of sections [61A.70](#) to [61A.745](#);

(5) use an illustration that at any policy duration depicts policy performance more favorable to the policy owner than that produced by the illustrated scale of the insurer whose policy is being illustrated;

(6) provide an applicant with an incomplete illustration;

(7) represent in any way that premium payments will not be required for each year of the policy in order to maintain the illustrated death benefits, unless that is the fact;

(8) use the term "vanish" or "vanishing premium," or a similar term that implies the policy becomes paid up, to describe a plan for using nonguaranteed elements to pay a portion of future premiums;

(9) except for policies that can never develop nonforfeiture values, use an illustration that is "lapse-supported"; or

(10) use an illustration that is not "self-supporting."

(c) If an interest rate used to determine the illustrated nonguaranteed elements is shown, it must not be greater than the earned interest rate underlying the disciplined current scale.

History: 2007 c 104 s 9

61A.72 STANDARDS FOR BASIC ILLUSTRATIONS.

Subdivision 1. **Format.** A basic illustration must conform with the following requirements:

(1) the illustration must be labeled with the date on which it was prepared;

(2) each page, including any explanatory notes or pages, must be numbered and show its relationship to the total number of pages in the illustration (e.g., the fourth page of a seven-page illustration must be labeled "page 4 of 7 pages");

(3) the assumed dates of payment receipt and benefit payout within a policy year must be clearly identified;

(4) if the age of the proposed insured is shown as a component of the tabular detail, it must be issue age plus the number of years the policy is assumed to have been in force;

(5) the assumed payments on which the illustrated benefits and values are based must be identified as premium outlay or contract premium, as applicable. For policies that do not require a specific contract premium, the illustrated payments must be identified as premium outlay;

(6) guaranteed death benefits and values available upon surrender, if any, for the illustrated premium outlay or contract premium must be shown and clearly labeled guaranteed;

(7) if the illustration shows any nonguaranteed elements, they cannot be based on a scale more favorable to the policy owner than the insurer's illustrated scale at any duration. These elements must be clearly labeled nonguaranteed;

(8) the guaranteed elements, if any, must be shown before corresponding nonguaranteed elements and must be specifically referred to on any page of an illustration that shows or describes only the nonguaranteed elements (e.g., "see page one for guaranteed elements");

(9) the account or accumulation value of a policy, if shown, must be identified by the name this value is given in the policy being illustrated and shown in close proximity to the corresponding value available upon surrender;

- (10) the value available upon surrender must be identified by the name this value is given in the policy being illustrated and must be the amount available to the policy owner in a lump sum after deduction of surrender charges, policy loans, and policy loan interest, as applicable;
- (11) illustrations may show policy benefits and values in graphic or chart form in addition to the tabular form;
- (12) any illustration of nonguaranteed elements shall be accompanied by a statement indicating that:
- (i) the benefits and values are not guaranteed;
 - (ii) the assumptions on which they are based are subject to change by the insurer; and
 - (iii) actual results may be more or less favorable;
- (13) if the illustration shows that the premium payer may have the option to allow policy charges to be paid using nonguaranteed values, the illustration must clearly disclose that a charge continues to be required and that, depending on actual results, the premium payer may need to continue or resume premium outlays. Similar disclosure must be made for premium outlay of lesser amounts or shorter durations than the contract premium. If a contract premium is due, the premium outlay display must not be left blank or show zero unless accompanied by an asterisk or similar mark to draw attention to the fact that the policy is not paid up; and
- (14) if the applicant plans to use dividends or policy values, guaranteed or nonguaranteed, to pay all or a portion of the contract premium or policy charges, or for any other purpose, the illustration may reflect those plans and the impact on future policy benefits and values.

Subd. 2. **Narrative summary.** A basic illustration must include the following:

- (1) a brief description of the policy being illustrated, including a statement that it is a life insurance policy;
- (2) a brief description of the premium outlay or contract premium, as applicable, for the policy. For a policy that does not require payment of a specific contract premium, the illustration shall show the premium outlay that must be paid to guarantee coverage for the term of the contract, subject to maximum premiums allowable to qualify as a life insurance policy under the applicable provisions of the Internal Revenue Code;
- (3) a brief description of any policy features, riders, or options, guaranteed or nonguaranteed, shown in the basic illustration and the impact they may have on the benefits and values of the policy;
- (4) identification and a brief definition of column headings and key terms used in the illustration; and
- (5) a statement containing in substance the following: "This illustration assumes that the currently illustrated nonguaranteed elements will continue unchanged for all years shown. This is not likely to occur, and actual results may be more or less favorable than those shown."

Subd. 3. **Numeric summary.** (a) Following the narrative summary, a basic illustration must include a numeric summary of the death benefits and values and the premium outlay and contract premium, as applicable. For a policy that provides for a contract premium, the guaranteed death benefits and values must be based on the contract premium. This summary must be shown for at least policy years five, ten, and 20 and at age 70, if applicable, on the three bases shown in clauses (1) to (3). For multiple life policies the summary must show policy years five, ten, 20, and 30:

- (1) policy guarantees;
- (2) insurer's illustrated scale; and

- (3) insurer's illustrated scale used but with the nonguaranteed elements reduced as follows:
- (i) dividends at 50 percent of the dividends contained in the illustrated scale used;
 - (ii) nonguaranteed credited interest at rates that are the average of the guaranteed rates and the rates contained in the illustrated scale used; and
 - (iii) all nonguaranteed charges, including but not limited to term insurance charges, mortality, and expense charges at rates that are the average of the guaranteed rates and the rates contained in the illustrated scale used.
- (b) In addition, if coverage would cease prior to policy maturity or age 100, the year in which coverage ceases must be identified for each of the three bases.

Subd. 4. **Statements.** (a) Statements substantially similar to paragraphs (b) and (c) must be included on the same page as the numeric summary and signed by the applicant or the policy owner in the case of an illustration provided at time of delivery, as required in sections [61A.70](#) to [61A.745](#).

(b) A statement to be signed and dated by the applicant or policy owner reading as follows: "I have received a copy of this illustration and understand that any nonguaranteed elements illustrated are subject to change and could be either higher or lower. The agent has told me they are not guaranteed."

(c) A statement to be signed and dated by the insurance producer or other authorized representative of the insurer reading as follows: "I certify that this illustration has been presented to the applicant and that I have explained that any nonguaranteed elements illustrated are subject to change. I have made no statements that are inconsistent with the illustration."

Subd. 5. **Tabular detail.** (a) A basic illustration must include the following for at least each policy year from one to ten and for every fifth policy year thereafter ending at age 100, policy maturity or final expiration; and except for term insurance beyond the 20th year, for any year in which the premium outlay and contract premium, if applicable, is subject to change:

(1) the premium outlay and mode the applicant plans to pay and the contract premium, as applicable;

(2) the corresponding guaranteed death benefit, as provided in the policy; and

(3) the corresponding guaranteed value available upon surrender, as provided in the policy.

(b) For a policy that provides for a contract premium, the guaranteed death benefit and value available upon surrender must correspond to the contract premium.

(c) Nonguaranteed elements may be shown if described in the contract. In the case of an illustration for a policy on which the insurer intends to credit terminal dividends, they may be shown if the insurer's current practice is to pay terminal dividends. If any nonguaranteed elements are shown, they must be shown at the same durations as the corresponding guaranteed elements, if any. If no guaranteed benefit or value is available at any duration for which a nonguaranteed benefit or value is shown, a zero must be displayed in the guaranteed column.

History: 2007 c 104 s 10

61A.725 STANDARDS FOR SUPPLEMENTAL ILLUSTRATIONS.

(a) A supplemental illustration may be provided so long as:

(1) it is appended to, accompanied by, or preceded by a basic illustration that complies with sections [61A.70](#) to [61A.745](#);

(2) the nonguaranteed elements shown are not more favorable to the policy owner than the

corresponding elements based on the scale used in the basic illustration;

(3) it contains the same statement required of a basic illustration that nonguaranteed elements are not guaranteed; and

(4) for a policy that has a contract premium, the contract premium underlying the supplemental illustration is equal to the contract premium shown in the basic illustration. For policies that do not require a contract premium, the premium outlay underlying the supplemental illustration must be equal to the premium outlay shown in the basic illustration.

(b) The supplemental illustration must include a notice referring to the basic illustration for guaranteed elements and other important information.

History: 2007 c 104 s 11

61A.73 DELIVERY OF ILLUSTRATION AND RECORD RETENTION.

(a)(1) If a basic illustration is used by an insurance producer or other authorized representative of the insurer in the sale of a life insurance policy and the policy is applied for as illustrated, a copy of that illustration, signed in accordance with sections [61A.70](#) to [61A.745](#), must be submitted to the insurer at the time of policy application. A copy also must be provided to the applicant.

(2) If the policy is issued other than as applied for, a revised basic illustration conforming to the policy as issued must be sent with the policy. The revised illustration must conform to the requirements of sections [61A.70](#) to [61A.745](#), must be labeled "Revised Illustration," and must be signed and dated by the applicant or policy owner and producer or other authorized representative of the insurer no later than the time the policy is delivered. A copy must be provided to the insurer and the policy owner.

(b)(1) If no illustration is used by an insurance producer or other authorized representative in the sale of a life insurance policy or if the policy is applied for other than as illustrated, the producer or representative shall certify to that effect in writing on a form provided by the insurer. On the same form the applicant shall acknowledge that no illustration conforming to the policy applied for was provided and shall further acknowledge an understanding that an illustration conforming to the policy as issued will be provided no later than at the time of policy delivery. This form shall be submitted to the insurer at the time of policy application.

(2) If the policy is issued, a basic illustration conforming to the policy as issued must be sent with the policy and signed no later than the time the policy is delivered. A copy must be provided to the insurer and the policy owner.

(c) If the basic illustration or revised illustration is sent to the applicant or policy owner by mail from the insurer, it must include instructions for the applicant or policy owner to sign the duplicate copy of the numeric summary page of the illustration for the policy issued and return the signed copy to the insurer. The insurer's obligation under this paragraph must be satisfied if it can demonstrate that it has made a diligent effort to secure a signed copy of the numeric summary page. The requirement to make a diligent effort must be deemed satisfied if the insurer includes in the mailing a self-addressed postage prepaid envelope with instructions for the return of the signed numeric summary page.

(d) A copy of the basic illustration and a revised basic illustration, if any, signed as applicable, along with any certification that either no illustration was used or that the policy was applied for other than as illustrated, must be retained by the insurer until three years after the

policy is no longer in force. A copy need not be retained if no policy is issued.

History: 2007 c 104 s 12

61A.735 ANNUAL REPORT; NOTICE TO POLICY OWNERS.

(a) In the case of a policy designated as one for which illustrations will be used, the insurer shall provide each policy owner with an annual report on the status of the policy that must contain at least the information in this section.

(b) For universal life policies, the report must include the following:

- (1) the beginning and end date of the current report period;
- (2) the policy value at the end of the previous report period and at the end of the current report period;
- (3) the total amounts that have been credited or debited to the policy value during the current report period, identifying each by type (e.g., interest, mortality, expense, and riders);
- (4) the current death benefit at the end of the current report period on each life covered by the policy;
- (5) the net cash surrender value of the policy as of the end of the current report period;
- (6) the amount of outstanding loans, if any, as of the end of the current report period; and
- (7) for fixed premium policies, assuming guaranteed interest, mortality, and expense loads and continued scheduled premium payments, if the policy's net cash surrender value is such that it would not maintain insurance in force until the end of the next reporting period, a notice to this effect must be included in the report; or
- (8) for flexible premium policies, assuming guaranteed interest, mortality, and expense loads, if the policy's net cash surrender value will not maintain insurance in force until the end of the next reporting period unless further premium payments are made, a notice to this effect must be included in the report.

(c) For all other policies, the report must include where applicable:

- (1) current death benefit;
- (2) annual contract premium;
- (3) current cash surrender value;
- (4) current dividend;
- (5) application of current dividend; and
- (6) amount of outstanding loan.

(d) Insurers writing life insurance policies that do not build nonforfeiture values shall only be required to provide an annual report with respect to these policies for those years when a change has been made to nonguaranteed policy elements by the insurer.

(e) If the annual report does not include an in-force illustration, it must contain the following notice displayed prominently: "IMPORTANT POLICY OWNER NOTICE: You should consider requesting more detailed information about your policy to understand how it may perform in the future. You should not consider replacement of your policy or make changes in your coverage without requesting a current illustration. You may annually request, without charge, such an illustration by calling (insurer's phone number), writing to (insurer's name) at (insurer's address), or contacting your agent. If you do not receive a current illustration of your policy within 30 days from your request, you should contact your state insurance department." The insurer may vary the sequential order of the methods for obtaining an in-force illustration.

(f) Upon request of the policy owner, the insurer shall furnish an in-force illustration of current and future benefits and values based on the insurer's present illustrated scale. This illustration must comply with the requirements of sections [61A.715](#), paragraphs (a) and (b), and [61A.72, subdivision 1](#) and 5. No signature or other acknowledgment of receipt of this illustration must be required.

(g) If an adverse change in nonguaranteed elements that could affect the policy has been made by the insurer since the last annual report, the annual report must contain a notice of that fact and the nature of the change prominently displayed.

History: 2007 c 104 s 13

61A.74 ANNUAL CERTIFICATIONS.

(a) The board of directors of each insurer shall appoint one or more illustration actuaries.

(b) The illustration actuary shall certify that the disciplined current scale used in illustrations is in conformity with the Actuarial Standard of Practice for Compliance with the NAIC Model Regulation on Life Insurance Illustrations promulgated by the Actuarial Standards Board, and that the illustrated scales used in insurer-authorized illustrations meet the requirements of sections [61A.70](#) to [61A.745](#).

(c) The illustration actuary shall:

- (1) be a member in good standing of the American Academy of Actuaries;
- (2) be familiar with the standard of practice regarding life insurance policy illustrations;
- (3) not have been found by the commissioner, following appropriate notice and hearing to have:
 - (i) violated any provision of, or any obligation imposed by, the insurance law or other law in the course of the actuary's dealings as an illustration actuary;
 - (ii) been found guilty of fraudulent or dishonest practices;
 - (iii) demonstrated the actuary's incompetence, lack of cooperation, or untrustworthiness to act as an illustration actuary; or
 - (iv) resigned or been removed as an illustration actuary within the past five years as a result of acts or omissions indicated in any adverse report on examination or as a result of a failure to adhere to generally acceptable actuarial standards;
- (4) not fail to notify the commissioner of any action taken by a commissioner of another state similar to that under clause (3);
- (5) disclose in the annual certification whether, since the last certification, a currently payable scale applicable for business issued within the previous five years and within the scope of the certification has been reduced for reasons other than changes in the experience factors underlying the disciplined current scale. If nonguaranteed elements illustrated for new policies are not consistent with those illustrated for similar in-force policies, this must be disclosed in the annual certification. If nonguaranteed elements illustrated for both new and in-force policies are not consistent with the nonguaranteed elements actually being paid, charged, or credited to the same or similar forms, this must be disclosed in the annual certification; and
- (6) disclose in the annual certification the method used to allocate overhead expenses for all illustrations:
 - (i) fully allocated expenses;
 - (ii) marginal expenses; or

(iii) a generally recognized expense table based on fully allocated expenses representing a significant portion of insurance companies and approved by the National Association of Insurance Commissioners or by the commissioner.

(d)(1) The illustration actuary shall file a certification with the board and with the commissioner:

(i) annually for all policy forms for which illustrations are used; and

(ii) before a new policy form is illustrated.

(2) If an error in a previous certification is discovered, the illustration actuary shall notify the board of directors of the insurer and the commissioner promptly.

(e) If an illustration actuary is unable to certify the scale for any policy form illustration the insurer intends to use, the actuary shall notify the board of directors of the insurer and the commissioner promptly of the actuary's inability to certify.

(f) A responsible officer of the insurer, other than the illustration actuary, shall certify annually:

(1) that the illustration formats meet the requirements of sections [61A.70](#) to [61A.745](#) and that the scales used in insurer-authorized illustrations are those scales certified by the illustration actuary; and

(2) that the company has provided its agents with information about the expense allocation method used by the company in its illustrations and disclosed as required in paragraph (c), clause (6).

(g) The annual certifications must be provided to the commissioner each year by a date determined by the insurer.

(h) If an insurer changes the illustration actuary responsible for all or a portion of the company's policy forms, the insurer shall notify the commissioner of that fact promptly and disclose the reason for the change.

History: 2007 c 104 s 14

61A.745 PENALTIES.

In addition to any other penalties provided by the laws of this state, an insurer or producer that violates a requirement of sections [61A.70](#) to [61A.745](#) is guilty of a violation of section [72A.20](#).
